DETAILED ACTION

1. In an effort to expedite prosecution, and in as much as the pending independent claims have been found to be allowable as noted below, previously withdrawn claims 8, 16, and 19 have been rejoined with the application. A complete action on the merits of all currently pending claims is included herein.

2. Claims 5, 8, 12-13, and 16 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Re claim 5, the recited elongated body in line 2 apparently constitutes a double inclusion of the hollow body recited in the base claim. Additionally, the recited ends on line 2 apparently constitutes a double inclusion of the ends previously recited in the base claim. Finally, because of this issue, "the ends" at the end of the claim lacks clear antecedent basis.

Re claim 8, "the posts" and "the elongated body" lack antecedent basis.

Re claim 12, the recited hollow body in line 2 apparently constitutes a double inclusion of the elongated body recited in the base claim. Additionally, the recited hollow body and interior channel are apparently inconsistent with the disclosed embodiment as presented in base claim 9. In the embodiment with a C-shaped track and interior channel, there does not appear to be a mount channel in the mount as such.

Art Unit: 3612

Re claim 13, "the track assembly body" lacks clear antecedent basis.

Additionally, the language regarding the channel in line 2 appears inconsistent with the embodiment described in the base claim.

Re claim 16, the claim is incomplete as it depends from a canceled claim.

3. The failure to apply the prior art to claim 16 should not be construed as an indication of allowable subject matter. Because the claim so seriously fails to meet the requirements of 35 USC 112 – second paragraph for the reasons stated above, it is not possible to apply the prior art to the claim in deciding patentability without resorting to speculation and conjecture as to the particular invention defined therein.

4. Claims 5, 8, and 12-13 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

5. Claims 1-3, 7, 9-11, 15, and 18-20 are allowed.

6. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any

Art Unit: 3612

extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
